# **TOTAL MAYHEM INSTALLATION**

## **Windows 95**

Place the CD-ROM into your CD drive.

Wait a few seconds for the Windows 95 Autoplay CD driver to kick in. This will bring up a menu asking you whether you wish to install the game or run it directly from CD. If this does not pop up, follow the steps below.

## **To Install Total Mayhem to your Hard Drive.**

Click on the MY COMPUTER icon on your desktop.

Click on the TM CD icon.

Click on the SETUP icon in the TM CD folder.

This will run the Total Mayhem Installer; follow the prompts in the InstallShield® Wizard to fully configure your game.

## **To run Total Mayhem directly from the CD.**

Click on the MY COMPUTER icon on your desktop.

Click on the TM CD icon.

Click on the MAYHEM icon in the TM CD folder.

This will run the program directly from CD. A small folder will be created on your C: drive to place preferences and save games.

# Game Keyboard Controls

## LEFT BUTTON

### **Windows 3.1**

Place the CD-ROM in your CD drive.

Go to the FILE menu in your Program Manager.

Click on the RUN menu item.

Click BROWSE.

Change drives to the CD-ROM drive and locate the SETUP program.

Highlight SETUP and click OK.

Click OK in the RUN window.

This will run the Total Mayhem Installer; follow the prompts in the InstallShield Wizard to fully configure your game.

### **To run Total Mayhem directly from the CD.**

Place the CD-ROM in your CD drive.

Go to the FILE menu in your Program Manager.

Click on the RUN menu item.

Click BROWSE.

Change drives to the CD-ROM drive and locate the MAYHEM program.

Highlight MAYHEM and click OK.

Click OK in the RUN window.

This will run the program directly from CD.

A small folder will be created on your C: drive to place preferences and save games.

# ***QUICK SET-UP FOR MULTI-PLAYER GAME***

NOTE: Multi-Player games can only be run from Windows 95.

## ***If you are playing TM from the hard drive:***

Click on the NET MAYHEM icon in the  
Total Mayhem folder on your desktop.

## ***If you are running TM directly from the CD:***

Click on the NET MAYHEM Shortcut on the CD.

## ***Select Provider***

Choose from either IPX, TCP/IP, Modem, or Serial connection.  
(Note: If you are running an IPX provider on a TCP/IP network,  
you will experience sluggishness and bad warping. Run  
TCP/IP instead).

## ***Select Session***

Either Create a New Session, or join a previously created  
session. If the person who created the session does not  
show up right away, wait a few seconds and TM will poll the  
network again for Sessions.

## ***Name***

On this screen enter a Name that your character will be  
referred to by.

## ***Game Type Selection***

The player who created the session, now chooses  
which map to play on and what type of game to play,  
Deathmatch or Capture Flag. An option to leave the  
enemy robots in the game is included.

## ***Team Selection***

Finally select your color for the game. The player  
who created the session needs to click PLAY to  
begin the game.

## **Keyboard Shortcuts**
